August 16, 2016

This letter confirms the grades obtained by Duanmu Hongyi from University of Science and Technology of China in the following two courses completed during the Vancouver Summer Program offered by the Electrical and Computer Engineering (ECE) department at the University of British Columbia from July 16 to August 16, 2016.

Communication Systems: Technology Embedded in Daily Life  
Introduction to Digital Systems Design with FPGAs  
88%  
98%

The Vancouver Summer Program is an intensive four-week program giving participants the opportunity to gain knowledge of culture and engineering practices in Canada. The courses offered: Communication Systems and Introduction to Digital Systems, consisted of 39 contact hours per course, were taught by ECE, and were evaluated by method of exams, assignments, and participation.
